### TAKE ONE TO GO: AMERICAN SUMMITS NOW AVAILABLE IN 12-OUNCE BOTTLES

NEW YORK – July 24, 2013 - [American Summits](#) fans on the move can now enjoy their water of choice in a more portable, personal size. The nation's fastest growing mountain spring water has introduced a 12-ounce recyclable glass bottle with a convenient twist-off cap to complement the brand's sleek, signature 750ml bottles. While the larger bottles make an elegant statement poured at home or when ordering water for the table at fine restaurants across the U.S., the new 12-ounce size, available in sparkling or still, is ideal for a generous, individual serving to offer at parties, to pack with a gourmet picnic or lunch, or to take on the go.

American Summits is fast becoming a favorite among health-conscious food connoisseurs across the U.S. Sourced from a remote, pristine spring high in Wyoming's Beartooth Mountain Range, and bottled without chemical treatment or preservatives of any kind, it is naturally imbued with trace beneficial minerals.

Offering a pure and refreshing taste that perfectly complements fine food and wine, American Summits earned a Silver Medal for "Best Sparkling Water," the highest of any American brand, at the 2013 Berkeley Springs International Water Competition.

American Summits is available for shipping throughout the United States and can be ordered online at [www.AmericanSummits.com](http://www.AmericanSummits.com)

#### **About American Summits**

American Summits mountain spring water flows from an isolated spring, naturally recharged by rain and snowfall, located in Wyoming's remote Beartooth Mountain Range. Bottled at the source, American Summits water is never subjected to chemical treatment, preservatives, reverse osmosis or distillation. Instead, our water is organically filtered through layers of mountain rock, and mechanically filtered to remove fine particulates, leaving traces of beneficial minerals and a balanced alkaline level.

American Summits is distributed to restaurants, hotels and specialty retailers who are committed to purity, quality, and local sourcing and is currently available in greater Los Angeles, Chicago, Las Vegas, metropolitan D.C., Wyoming, Montana, and Utah. American Summits can be shipped to businesses and consumers in most areas of the United States. Learn more or order online at [www.AmericanSummits.com](http://www.AmericanSummits.com).
